<p>Our early childhood and preschool curriculum builds a strong foundation in music and dance by stimulating creativity and imagination through multi-sensory activities and play.</p> <p>Children learn the basics of rhythm, balance, coordination, self-expression, and confidence.</p> <p>Lessons are designed to nurture each child’s cognitive, language, physical, creative, and social-emotional development.</p>	<p>The most important component of any music curriculum is individual instruction. In private lessons students are taught instrumental and/or vocal technique as well as repertoire.</p>	<p>Music skills classes provide a comprehensive study of theory, ear training, sight reading and music history with an emphasis on performance.</p>	<p>Technical mastery is required for both instrument proficiency and individual expression.</p> <p>The Pre-College program creates an environment where participants learn and grow together as they attend their weekly classes and ensembles and participate in competitions and school concerts/events.</p>
<p>DISCOVERY YEAR</p>	<p>PERFORMANCE OPPORTUNITIES</p>		<p>COLLEGE PREP</p>
<p>AGES 4-5</p>	<p>We offer performance classes and live performance opportunities in ensembles, vocal groups, jazz band, and the OCMD Orchestra. Local venues include South Coast Plaza, the Richard Nixon Presidential Library, Irvine Barclay Theater, and more.</p> <p>The ability to play music with others is not only a rewarding experience, but also very helpful in the development of basic music skills. These ensemble experiences help foster meaningful relationships and create a sense of community with all those involved.</p>		<p>AGES 17-18</p>
<p>Students will develop and learn movement basics that can be applied to multiple genres of dance.</p>	<p>ADULT PROGRAMS</p>		<p>College provides guidance and assistance with college applications, audition preparation, and audition recordings.</p>
